VISHAL UBALE

Python Developer

PROFILE SUMMARY

- 4+ Years of experience in application development using Python and Django,
- Working in agile methodology environment and familiar with version controlling system such as Git and Azure Repos,
- Good Knowledge of frontend technologies like HTML, CSS, JavaScript,
- Hands-on experience in Azure cloud services like Azure DevOps and App Service,
- Good knowledge of software development lifecycle and Object-oriented programming,
- Good communication skills, Confident, Articulate, and professional speaking abilities.

WORK EXPERIENCE

Capgemini

Consultant (Python Developer)   20/10/2021 – Present

Project Name – *Green Flag*

- Increased the usage and adoption of AI in 20+ departments by implementing RESTful APIs to surface machine learning predictions.
- Designed an anomaly detection framework for 10+ digital channels of RW, reducing monthly loss avoidance by $23K.
- Built an interactive dashboard for 120+ private sector clients to explore employment and investment opportunities across 30+ geographies.
- Developed a smart solution that reduced the number of manual data entries from 89% to <5%, decreasing processing time from 20+ days to 48 minutes.

SKILLS

Programming Languages:
- Python
- JavaScript,

Libraries:
- Numpy,
- Pandas,
- Matplotlib,

Frameworks:
- Django,
- Flask,
- React

Database:
- Oracle,
- MySQL,
- MongoDB

Tools:
- Pycharm,
- Postman,
- Robo3t

Analytic tools:
- PowerBI,
- Tableau

EDUCATION

Indira college of Engineering and Management (2018)

- Bachelor of engineering (Computer Engineering)

CERTIFICATIONS

- Microsoft Certification: Azure Fundamentals,
- Microsoft Certification: Azure AI Fundamentals,
- Introduction to Azure cloud services,
- Fundamental of visualization with Tableau,
- Introduction to data science using Python,
- Introduction to Machine learning with Python,
- Advanced Python,
- Introduction to Artificial Intelligence
